The Secretary,
The Government of Madras,
Public Health & Medical Department,
Fort St. George,
M a d r a s.

S i r,

We the undersigned citizens of Mangalore on our own behalf and on behalf of others, who are of like opinion, venture to approach your goodself with this representation in the hope and trust that you will be pleased to view our request with sympathy and magnanimity and be pleased to adopt necessary measures by way of relieving the tension that exists.

We have now for the first time in the history of our Municipality, not only an alarmingly prepondering majority of one community, viz, the Gowd Saraswath which is popularly known as 'Konkani' Community, but as ill-luck would have it a Chairman, Commissioner, a Municipal Health Officer and a Municipal Prosecutor all belonging to the same Community- to wit - the Gowd Saraswath or Konkani Community.

The Chairman and the Municipal Health Officer further more are close relatives being first cousins and are natives of this place having large vested interests in the City. The Municipal Health Officer, Dr. B.S. Baliga's son is employed in one of the principal Banks in the City and his son-in-law is a prominent merchant, his Brother-in-Law is a Petrol merchant supplying petrol to the Department. Many of the leading merchants not only belong to the very same community but are also related to the Municipal Health Officer one way or the other

Taking human nature as it is, and giving

credit to human feelings and aspirations in the general order of things, Civic Authority centralised in one Community without any external check or control - centralised in a set of Gentlemen closely knit to one another by communal and relational ties cannot serve the best interests of the City and the rate payers residing therein.

Of these executive officials, the Municipal Health Officer has been in this district for over 11 years as District and Municipal Health Officer and every time he was transferred he has, to our misfortune managed to get back to this district by some means or other.

For an executive officer to be in his own district for over 11 years with vast vested interests and influential relatives among the traders, thus having time and opportunities enough to form his likes and dis-likes, Government will be pleased to see, is opposed to all principles of sound administrative policy and is surely not very congenial nor helpful to the best interests of the City and its citizens.

We do not at present desire to give a catalogue of evils and dis-advantages we have been experiencing on account of this unusual combination and centralisation of power in one Community, though they are many, but we do submit that this has proved sufficiently harmful and injurious all round, to the extent that we feel compelled to approach Government with the request that Government may be kindly pleased to shift the Municipal Health Officer to some other place so that there may be a rift in this combined solidarity to the

relief and advantage of the masses. We are not in any way prejudiced against the Municipal Health Officer in requesting for a change but are guided by the fact that he has been more than sufficiently long in this district and it is not fair nor just to allow him to continue here any longer while the Commissioner though belonging to the same Community came here only a year ago.

We have ventured to approach the Government in the fullest hope and trust that Government will be pleased to see through the prevailing state of affairs that must necessarily be causing anxiety to all be pleased to comply with our just prayer.

We beg to remain,

S i r,

Your most obedient Servants,

Retd Medical Practitioner.
